OUTLINES.

Famine is menacing Valparaiso, Chile, which was devastated by earthquake and fire last Thursday evening; the shocks continue and condition of affairs is horrible; 100 men have been shot for looting; among several towns wrecked, there was one which totally disappeared——In spite of Bryan's declaration that he didn't care to be endorsed by the Illinois Democratic convention unless State Committeeman Roger Sullivan's resignation was demanded, the convention yesterday enthusiastically endorsed the Nebraskan and tabled a resolution calling for Sullivan's resignation——Leader Murphy, of Tammany, says if the organization is for William R. Hearst for Governor he will favor the newspaper man; District Attorney Jerome denounces Murphy and Hearst, declaring that Hearst's money is buying his gubernatorial boom——The Illinois Republican State convention yesterday enthusiastically endorsed Speaker Cannon for President——President Roosevelt has ordered that the negro troops at Brownsville, Texas, be sent to Oklahoma and the fort at Brownsville be put out of commission——At Pittsburg yesterday three men lost their lives and nine seriously affected by a gas blow-out in a coke furnace——The Democratic primary election will be held in Georgia today to nominate a Governor and other State officers; there are five candidates for Governor, and of them a bitter campaign has been waged between Clark Howell and Hoke Smith ——New York markets: Money on call strong and higher 4 1-2 to 6 per cent; ruling rate 4 1-2, closing bid 5 1-2, offered at 6; spot cotton quiet, 10.10; flour steady, but dull; wheat firm, No. 2 red, 77 34 elevator; corn firm, No. 2, 57 elevator; oats steady mixed, 36; turpentine steady 62 1-2 to 63; rosin quiet.

Because a man disputes the allegations is no sign that he is able to refute them.

A Georgia paper says "the peach season is over." It isn't over in Wilmington. They still continue to be numerous in the surf at Wrightsville Beach

As the uncompromising, inveterate and radical stand-patter, Uncle Joe is the legitimate and logical individual for the Republican nomination for President in 1908.

Now that the Republican State convention in Illinois has endorsed Speaker Cannon for President, "Uncle Joe" can realize that any State convention can humor a joke.

A young lawyer saved a widow from drowning in the surf at Atlantic City and then married her. Surf bathing is exceedingly enjoyable but it certainly has its dangers.

"Bryan's honesty will win," asserts the Raleigh News and Observer. We are decidedly "jubous" about that. For years and years Republican dishonesty has been walking off with the cake.

Secretary Root can go down to South America and play "bully-boy-with-the-glass-eye" as much as he pleases, but after all it will be found that Blaine's reciprocity idea carried to its conclusion will beat soft solder getting trade.

Roosevelt's letter to Congressman Watson, of Indiana, is another evidence of the rank partisan President that he is. It was a pretty sly political trick to work off a campaign document through the medium of the Associated Press.

A New York woman who is being prosecuted for bigamy said she married her second husband under the impression that her first husband was dead. That's what a married man gets for taking to the woods and never coming home to make up occasionally.

The Washington Post hurriedly remarks: "Maxim Gorky says he will pay no more attention to America. That's a case of reciprocity for fair." Max has no doubt read about the cavortings of the gnat on a bull's horn, but he fails to recognize in it the similitude of his jumping on as big a thing as America.

REA[illegible]R TOURNEY

Big Inter-State Meet Here on Wilmington Club Grounds Beginning To-day.

THE VISITORS ARE ARRIVING

Professionals and Amateurs From All Over This and Other States—Preliminary Shoot Yesterday Afternoon.

Everything is in readiness for the big Inter-State Gun Club tournament, which will open this morning at 9 o'clock on the grounds of the Wilmington Club, near Delgado. There are present already for the meet expert shots from the Carolinas, Virginia, Tennesse, Georgia, Alabama, Maryland and Ohio, and there is nothing in the way of a big success of the event. Yesterday afternoon some of the visitors and the local men went out to the traps for a preliminary shoot and the strangers were very favorably impressed with all the facilities for pulling off a successful affair. Others are expected in this morning. A number of teams arrived on the late trains last night and will meet the committee in time for the opening of the shoot this morning. Rain or shine the tourney will be called on schedule time and all shooters are requested to be on the grounds in plenty of time. There will be ten events per day and $100 added money, so that the prize offering is very attractive.

A team from Charlotte arrived last night to take part in the shoot, those in the party being Messrs. J. E. Crayton, J. W. Todd, C. C. Bates, W. J. Malone, C. W. McPhee, E. F. Creswell and C. M. Creswell. Besides participating in the tournament proper, these gentlemen are present to meet a team from the Wilmington Club on challenge for a special 100-target match, five shooters to a side. This promises to be very interesting.

In the preliminary shoot yesterday afternoon, the following scores were made by local and visiting shooters:

Baggage Goes A'Begging.

A dress suit case, a telescope and a hand bag, all the property of travellers on the suburban line evidently, were found Monday night by Officer M. P. Newton on the sidewalk near the small ticket office of the Consolidated Company at the junction, at Front and Princess streets. The baggage had remained there all the afternoon and a part of the night and Officer Newton felt justified in sending it up to the hall, where it awaits identification by the owner or owners.

BOARD OF ALDERMEN HOLDS SPICY SESSION

Many Matters of More or Less Interest Before Council Yesterday Afternoon—Crematory Purchase Referred to Committee.

The purchase and installation of a crematory for the disposal of the city's garbage, the primary object of yesterday afternoon's called meeting of the Board of Aldermen, occupied only a small portion of the deliberations of the body at the special session, which continued a little less than two hours and a half. Various matters were brought forward and acted upon, the main object being to get these in shape for the regular night session of the Board of Audit and Finance, which assembled later. The Board heard the proposition of Mr. Bell, of the Dixon Garbage Crematory Company, but it was decided best to defer action until other propositions can be investigated. This in spite of the fact that already the city has no dumping ground for its refuse and the municipality is threatened with suit for damage, if more garbage is placed on the private property of citizens on the outskirts of the town. In spite of the further fact, too, that grand juries at recent terms of the Superior Court have threatened city officials with indictment unless garbage nuisances in the outskirts are abated at once. But the Board was not in position to act at once yesterday and it is hoped now that there will be no further delay, since it was agreed to advertise for bids for a plant and to proceed with the installation of one as soon thereafter as possible.

The Board met at 5 o'clock. all members being present except Alderman W. E. Yopp, who was excused. There were also present City Engineer P. Matthew, City Clerk and Treasurer Fowler, Fire Chief Chas. Schnibben and other officials of departments.

An application from Third Vice President J. R. Kenly, of the Atlantic Coast Line, asking that permission be given to extend the wharf of the company, 18 feet on the south side, running west about 240 feet, on Red Cross street, adjoining the platform at the foot of Red Cross on the east, was granted. It was stated by Mr. Kenly that this would be a great convenience to the company as well as the public generally and will leave ample dock room of about 48 feet for all commercial purposes. It is understood, of course, that the Board of Aldermen will have the same control over this extension that it has at present over the dock at the foot of Red Cross street for which the company pays a rental of $100 per year. The granting of the application was recommended by the Streets and Wharves Committee.

Capt. E. D. Williams manager of the Diamond Steamboat and Wrecking Company, tendered through the Streets and Wharves Committee, an offer to put Chesnut street dock in good repair, keep it in good condition and pay $60 per year for use of same, the city reserving the use of the slip for the fire boat and use of part of the wharf for Fire Department purposes in case it is needed. The Streets and Wharves Committee recommended that the lease be made with the distinct understanding that the city does not surrender or give up any right, interest or title to any of the property and that the lessee, Capt. E. D. Williams, comply with all the laws to the effect that the Board of Aldermen do not give any exclusive right to the property, but that it is to remain open for the general use of the public. The recommendation of the Streets and Wharves Committee was accepted and the lease was ordered made to Capt. Wil-

BERRY GODWIN DEAD

Lumberton's Most Prominent Citizen Died at Advanced Age Last Night. Estate Valued at Over $200,000. Funeral There To-day.

Lumberton, N. C., August 21.—Mr. Berry Godwin died this afternoon about six o'clock at his home here, aged nearly eighty years. Mr. Godwin was born in Johnson county, but came to Robeson more than a half century ago and engaged in the turpentine business. He lived in Lumberton the last many years of his life. Besides being one of the best known citizens of the town, he was the wealthiest. He was probably worth $200,000. During his life he spent much of his money to help worthy causes. He was a man with the strongest constitution and went regular to his place of business every morning and remained during the day. There was a noticeable decline in his health several days ago. Saturday morning he went down street as usual, but was later taken to his home, where he was unconscious the most of the time until his death this afternoon. His condition was thought by some to have been better this morning.

One daughter, Mrs. Griffith, of Greensboro, and two grand-children, Mrs. A. W. McLean and Mr. George French, of Lumberton, survive. The interment will take place here to-morrow.

Mr. John Beckwith Dead.

Friends in this city learned with sorrow yesterday of the death of Mr. John Beckwith, until about 18 months ago a clerk in the office of Mr. E. L. Prince, in the A. C. L. general offices here. Mr. Beckwith had been in poor health for some time and went to Petersburg with the hope that the change of climate and work would be beneficial to him. He passed away Monday night. Mr. Beckwith is survived by a son and two daughters. all grown, who have the sympathy of many friends in their bereavement.

Wanted.

An active, intelligent and sober young man is wanted to act as traveling agent and general solicitor for The Morning Star. The very best references and recommendations required. A resident of Wilmington preferred. **

COMPLAINT IN SUIT

Willard Bag & Mfg. Co. Seeks to Recover Nearly 25,000 from Clarendon Water Works Co., Alleging Insufficient Supply.

Messrs Meares & Ruark, attorneys for the plaintiffs, yesterday filed complaint in the suit instituted some time ago by the Willard Bag & Manufacturing Company against the Clarendon Water Works Company for the recovery of the loss sustained by the plaintiffs in the recent destruction of their plant on Water street, by fire communicated from the Vollers building, on Front street, in which the fire originated. The grounds for recovery are based on the alleged failure of the water company to provide, according to its contract with the city, a sufficient supply and pressure of water for the firemen to control the flames, the case being similar to one which attracted considerable attention at Greensboro some time ago.

The amount of damages asked for in the complaint is $24,846.36, the same being the difference between $59,139.56, the alleged actual value of the property, and the $34.293.20, which the factory people collected in insurance on the plant. The main allegations in the complaint is that the plant is inadequate and insufficient to meet the requirements of the city and that the company was fixed with knowledge of this fact in its experience with fires prior to the burning of the Willard factory. It is also alleged that the water company negligently failed to keep the pumping engines at the plant at work thereby maintaining a proper pressure; that a proper person in the absence of the engineer at night was not there to attend to the matter. Messrs. Meares & Ruark are also attorneys for Gaston D. Phares & Co., furniture dealers, who are suing for $2,000 worth of furniture destroyed in a store room in the same fire. The attorneys for the water company are Messrs. Davis & Davis. Jno. D. Bellamy & Son, Bellamy & Bellamy and Herbert McClammy, Esq. The case will hardly come up for trial before late in the Winter.

AUDIT AND FINANCE

Regular Semi-Monthly Session of the Board Last Night at City Hall.

DOINGS OF THE ALDERMEN

Some Matters Approved, Others Rejected and Some Postponed For Action—No Consideration of Crematory Purchase.

The Board of Audit and Finance was in session less than two hours last night. Only three members of the Board, Messrs. McQueen, Yates and Brady, were present. There were also in attendance upon the meeting nearly every member of the Board of Aldermen, interested in one or another of the propositions that came over from their meeting in the afternoon. However, the business transacted was not specially important. Some of the matters that came from the Board of Aldermen were concurred in, others were postponed for one reason or another and still others were rejected. The matter of the crematory was not considered at all, Chairman McQueen stating that the Finance Board had only to do with the financing of the proposition and could take no action until action is taken by the Aldermen. Mr. George N. Bell, Jr., representing the Dixon Company, of Toledo, Ohio; Chairman Yopp, of the Sanitary Committee of the Board of Aldermen, and Dr. C. T. Harper, city superintendent of health, were present to urge the matter on the Finance Board, but the Chairman brooked all discussion with the statement that it was up to the Aldermen first to agree upon something and pass it along to them for approval. Unless the city could purchase a plant on long time, the chairman saw no way of providing this necessity as all the available funds this year are already appropriated. Unless Mr. Bell makes a proposition to the Aldermen to sell his plant on long time, it seems that his proposition with the city is all up, at least for the present.

The appropriation of the Aldermen for the system of drainage in the vicinity of Tenth and Princess streets to the extent of $1,407 was concurred in provided the amount come out of moneys already appropriated.

The appropriation of $1,000 for building a retaining wall for the filling of a ravine at Front and Wright streets, was referred back to the Committee with a request that bids for the work be advertised for. This is the measure championed by Alderman Brown.

President L. B. Rogers, of the Merchants' Association, was present to urge concurrence in the action of the Aldermen in setting apart $100 for a New Hanover exhibit at the State Fair, provided the county give a like amount. The action of the Aldermen was approved.

The contract with Roger Moore for paving Chesnut, between Front and Water streets, was approved provided the work cost not over $2,893, the amount of the bid.

The appropriation of $10 per month to one of the street laborers to look after the feed and care of the city five stock was referred back to the Aldermen with the suggestion that one man be hired for all of his time at $30 per month to attend to this work, the arrangement to continue three months as an experiment.

The bill for painting the roof of the shed for shelter of vehicles belonging to the city, near Fourth street engine house. was concurred in, after explanation.

A bill of Griffith Brothers, for plumbing done in the City Hall and which had previously been held up, was explained by Alderman Moore, chairman of the Public Building Committee, and was ordered paid by the Board. In this connection a rather heated colloquy ensued between Mr. Moore and Mr. Meares, clerk of the Board, the matter of authority of the clerk being questioned by Mr. Moore in some work recently done to the offices in the City Hall building. The two men were called to order by the chairman when the discussion had reached the personal stage.

Mr. Price, chairman of the Library Committee, was present and asked the employment of a librarian for the new institution at a salary of $50 per month. The idea is to employ an expert for the first few months to assist with properly catalogueing and

AS TO LYNCHING.

The Richmond Times-Dispatch recently said this with reference to the recent occurrences in this State and South Carolina:

"Lynching is lynching, no matter the circumstances, and lynching is unlawfully depriving a man of his life, whether or no he be technically 'in the custody of the law.' It has become alarmingly frequent in the South, not for one crime alone, but for all capital crimes, and occasionally for those which are not. Nor can we reasonably expect it to cease so long as reputable newspapers defend and justify it."

The above calls forth a remarkable editorial from the Richmond News-Leader, and as it is both interesting and states the actual situation as it confronts the people of the South, the Star reproduces it. The News-Leader says:

"Nobody has a more profound reverence for law, a stronger concern for good order or a higher regard fr the sanctity of human life than The News-Leader. Yet we believe firmly that in certain conditions the taking of human life outside the operations of the law is not only justifiable, but necessary for the well-being and safety of society.

"When a criminal or accused person of any grade is in the hands of the State, which is the people and the law, the honor of the State is pledged for his safe custody and fair trial, and an attack on him is an attack on the sovereignty of the Commonwealth. So he is protected. In certain and special and specified and easily understood conditions we believe the people of a community have the right to consider their own necessities before delivering a man known to have done one certain crime to the custody of the law. It is just as well to do a little plain talking on this subject.

"Before the war this crime was unheard of in the South. The white men went into the army, leaving their women in charge of the negro slaves without the faintest fear of any wrong worse than a little petty thieving, regarded almost as the slave's privilege. The habits of submission to authority and reverence for the white skin were so deeply implanted that they had become nature. Since then conditions have changed. Authority has been overthrown and reverence destroyed, and those negroes who are naturally bad and malicious have been left irresponsible and ungoverned except by fear. The great majority of these people, justice requires us to say, are wonderfully good citizens, considering their circumstances and opportunities. In every community and neighborhood of the South, however, there is a proportion of negro men who are brutes made far more dangerus than brutes by the possession of some human intelligence. In many parts of the South the white population is thin or scattered, and the men cannot stay at their homes. They must be away in the fields or at their business, and their women and girl children are left nearly every day unprotected.

"The bad and brutal negro knows nothing of the pangs of shame or disgrace. Made the central figure of a capital trial, he becomes mannified to a hero in his own eyes and his victim must tell in open court the hideous details which the law exacts. To his limited intelligence the chances of escape seem many, and even when condemned to death his emotional nature is worked into a religious ecstacy, or frenzy, and he dies triumphant.

"These things are known to all Southern people. The conditions are peculiar and peculiarly horrible, the class to be dealt with and its addition to the crime to be dealt with are peculiar. All the conditions are beyond and outside the contemplation of any written law. Therefore remedies peculiarly swift and drastic and warnings peculiarly terrible are necessary. Negroes of the kind to which we refer can be ruled and deterred in one way only, and that is by terror, by the certainty of quick, unceremonious, sure death if they take or attempt any liberties with white women or children. That is a grim and dreadful fate, but it is a fact, and must be realized because it is present with us and concerns the homes and lives and honor of the majority of the Southern people every day in the year.

"For the one crime—and for that only—we believe lynching, before the law can intervene, to be not only right, but necessary. The work of putting to death the dangerous brute should be done soberly and decently, even solemnly, but relentlessly, as a thing required for the protection of homes and families, but with circumstances reflecting on the reputation of the community for propriety and humanity as lightly as possible.

"In saying this, ugly and dangerous as it may seem, we believe we express the deliberate, earnest feeling and belief of the vast majority of Southern white men who live in the country, including many as good citizens, as sober, conscientious and God-fearing as any land on earth knows."

It is hard to create a sentiment against lynching in the face of the facts so strongly put by our esteemed Richmond contemporary.

DUMMY DIRECTORS.

The Troy (N. Y.) Press has this to say:

"One result of the reform wave in political and business circles, and their allied interests, is the fact that from now on dummy directors must stand as disgraced directors as fast as their names become known. When corporate defalcations, swindles and scandals break loose, the goody-goody director who didn't know what was going on will be held guilty because it was his business to know, and his failure to perform his duties made him the equivalent of a decoy duck. No man has a right to assume, formally, a responsibility which he fails to fulfill. One of the chief breeders of the chaotic and idiotic forms of socialism rampant today is the dummy director who has betrayed his trust by letting his name stand as a bait for the unsuspecting public."

There's lots of truth in that but how in the world can a dummy director know that they have been making a dummy of him till all the money is gone?

THE NEW RATE LAW.

The esteemed Washington Post thus explains its position:

"The Post is neither a defender nor an adverse critic of the railroad-rate legislation enacted by the recent session of Congress. This newspaper is awaiting with an interest bordering on anxiety the application of the new law to present conditions as a test of its efficacy before it will either condemn or approve it. The Post has indulged in no metaphysical speculations concerning the virtues or the evils of the enactment. It has been content, and still is, to trust the judgment and the patriotism of Congress in this important matter, as in all ohers affecting the national welfare."

The Post always did have good judgment. There certainly is no use of taking chances of committing one's judgment on any act of Congress til we can find out whether it will hold water or not. The Post is on the safe side in this instance.

CURRENT COMMENT.

—As the Governor of North Carolina said to the Governor of South Carolina, "It's a short time between lynchings."—Washington Post.

—This year the shortage of farm hands is bound to be especially great, because so many men think they are cut out for spellbinders.—Washington Post.

—And it also seems that the Democratic committee is asking for all good party men to contribute one plunk to the Congressional campaign fund. Here's where we go down in our jeans.—Greenville (S. C.) News.

—Consul General G. M. Roosevelt, at Brussels, reports that poultry raising, which has been practiced in Belgium as an industry restricted to home requirements, has during the past few years taken on a more important and extended character, and to-day is rated as one of the most profitable industries of the country.—Exchange.

—An old Kansas citizen, who had been henpecked all his life, was about to die. His wife felt it her duty to offer him such consolation as she might, and said: "John, you are about to go, but I will follow you." "I suppose so, Manda," said the old man weakly, "but so fur as I am concerned you don't need to be in any blamed hurry about it."—New York Tribune.

—Of the 10,391 miles of the proposed Pan-American railway route lying between New York and Argentina, 5,709 miles are covered by roads in operation, and over 703 miles the work of construction is proceeding. Links for future building measure just under 4,000 miles. By the end of 1907 a passenger may ride from New York to Guatemala City, though not without change of cars. The dream that goes farther is that of Pullman cars running from Boston or New York through to Buenos Ayres. That a time of full realization is sure to come the Pan-American Congress in session at Rio Janeiro has just given its renewed expression of belief.—New York World.

TWINKLINGS.

—Lola—Jack says I'm as pretty as I can be. Grace—Well, of course. It isn't your fault that you can't be prettier.—Chicago Daily News.

—"What wages do you pay, mum?" "I'm willing to pay you whatever you are worth." "I've never worked for as little as that. Good-day to you."—Cleveland Plain-Dealer.

—"I feel that things in this country are not right." "Forget it. That's pessimism." "But I propose to prove it." "Horrors, man, that's muck-raking."—Philadelphia Bulletin.

—"Maw, what is a reprobate?" "Ask your father, Johnny." Now, why should a man become incensed over a harmless little episode like this?"—Louisville Courier-Journal.

—Weary Willie (reading "ad.")—"Man wanted to chop wood, bring up coal, tend furnace, take care of garden, mind chickens and children." Frayed Fagin (groaning)—Gee! Dem matrimonial advertisements make me tired.—Judge.

—"I think that's the funniest joke I ever wrote. Everybody laughs the first time they read it; you're the only exception," said Young Scribbles, disgustedly. "Why, I laughed," replied Oldun. "You did? Not so's I could notice it." "No; you weren't born at the time."—Philadelphia Press.

—"I want half a pound of water crackers," said Mrs. Newcome. "All-fired sorry, ma'am," replied the country storekeeper, "but I ain't got but two dozen of 'em in the place." "Well, I'll take them." "Jest wait ten or twenty minutes. H. Peters an' Josh Slocum has been usin' 'em fer checkers an' they're playin' the decidin' game now."—From Major Mulford's Bill of Fare.

The doctors used to bleed mankind,
For every ill that they could find,

THE STRENGTH OF A BANK

Like that of a powerful locomotive, depends upon the men who run it.

The Southern National Bank is owned by 180 successful business men of this section; is supervised by the United States Government, and and no twenty stockholders hold enough stock to direct its affairs

It seeks safety rather than large profits, never charging more than the legal rate, six per cent, for money loaned, and seeks the accounts only of that class of industrious people who try to build their own fortunes.

Capital and Surplus $300,000.00.

Still Ahead in Low Prices

Our regular prices are much cheaper than any special prices yet advertised. Our goods are NEW. The following shows how and why we do and can undersell.

Discount on account of large purchases, average,	10 pr. ct
Discount for cash (we pay cash), average	10 pr. ct
Savings of freight on car shipment, average	5 pr. ct
Total,	25 pr. ct

As you see, we can sell goods at a profit of 25 per cent. and at the same time sell them for just what they would cost us if we bought in small quantities, paid local freight and bought on time. We do not try to make 25 per cent.

Our claim is corroborated by the number of prudent purchasers we send. For June the 1st to the present, we have sold $4,540.21 worth of goods, received more than $3,300.00 in cash. Our books are open for inspection of any doubters. When in need of furniture come to headquarters.

SPIRITS TURPENTINE

—The Chatham Manufacturing Co., which makes blankets and other woolen goods and of which Hugh G. Chatham is president, has filed notice with the Secretary of State, at Raleigh, that it has increased its capital stock from $100,000 o $350,000 and changes its place of business from Elkin to Winston-Salem.

—At Tarboro Saturday afternoon a small bull which was pulled out of Tar River at the railroad bridge in an exhausted condition, was all right Sunday. The animal came out of the pasture of Mrs. Nellie Batts, about two miles above the Norfolk and Carolina railroad bridge, which is five miles above Tarboro. So the bull must have navigated the Tar for seven miles.

—Dr. H. J. Williams, Jr., of Winston-Salem, who recently completed a four years' course in the American Medical College, at Chicago, left Monday afternoon for Washington. He will go to Edinburgh to take another year's course in medicine. Dr. Williams will probably locate at Cape Town, South Africa, and take charge of a private sanitarium.

—The Secretary of State on Monday chartered the Waring Bank Agency, with headquarters at Tarboro, capital stock $125,000, held by Hiram H. Jones, N. A. Kestler, Andrew Geddes, A. J. Posten and Curtis E. Grayam, all of Washington, D. C., and John L. Bridgers, of Tarboro. The company will act as agents for banks, issue daily advance reports and publish records of depositors and of notes.

—The Secretary of State, at Raleigh on Monday, authorized the Home Turpentine Company, of Raleigh, to cease business. Its office was at Raleigh, but the plant was at Lillington and was burned. It costs now a $5 fee for a company to dissolve. Up to the last Legislature the fee was $20. It is said to be more trouble to dissolve than to incorporate—at all accounts such is the statement of State officials.

—The Southern Railway depot at Germantown was broken open Sunday night by unknown parties, who carried off several express packages, the ticket case voucher and a suit of clothes. The ticket case was found a hundred yards from the depot. The case was thrown into Town Fork Creek. The robbers were evidently disappointed as they failed to get any money. Mrs. Stewart, the agent, always carried the cash home with her at night.

—Asheville Special, August 20: The superintendent's office of the Asheville Division of the Southern Railway has been notified that the two ladies run down by a work train near Bushnell, Swain county, Saturday afternoon, were Mrs. Margaret Gibbey and her daughter. Miss Sarah Gibbey. At the superintendent's office it was said this morning that they had been notified that Mrs. Gibbey was dead, but that the report that Miss Gibbey was also dead had not been confirmed. From other sources it is learned that Miss Gibbey lingered but an hour after her mother's death.

—At a meeting of the board of directors of the Goldsboro Knitting Mill Saturday afternoon the following officers were re-elected: Geo. C. Royall, president; James Rosenthall, vice president; A. U. Kornegie, secretary and treasurer; A. L. Bassett, of Jamesville, S. C., was elected superintendent. Mr. Bassett is thoroughly familiar with every detail of the business, having had twelve years' experience in some of the largest mills in the country. The order for the new machinery will be placed in a few days, and with everything favorable the new company expects to begin operations about October 1st.

—Greensboro Special, August 20: Mrs. J. W. Brooks, wife of a bricklayer residing near the plant of the Cape Fear Manufacturing Company, in South Greensboro, took an overdose of laudanum at 8:30 o'clock this morning and as a result was in the hospital an hour later in a condition that was critical, to say the least. Whether the laudanum was taken through mistake or with intention of committing suicide is not known. It was rumored that she had been greatly worried recently over domestic difficulties, and several who knew the woman gave it as their opinion that it was an attempt at suicide.

—Charlotte Special, August 20: Mr. W. E. Hipp, a prominent farmer of Mecklenburg county, was struck by a Seaboard train this morning some miles west of the city as he was going home and received injuries from which it is feared he will not recover. Mr. Hipp was going in the same direction as the train and his vehicle was struck from the rear, the mules being killed, and the farmer thrown a considerable distance where he fell unconscious. Mr. Hipp suffered a fracture of the arm, a broken hip and other injuries. It seems that the engineer did not see the vehicle in time to slow up on account of a bend in the road and a bunch of trees intervening.

—A Richmond, Va., dispatch says: Miss Olive Paylor and Mr. George C. Wheatley, both of Newbern, N. C., were married in the parlor of Rev. E. V. Balby's residence Saturday night The wedding was exceedingly quiet and came as a surprise to the friends of the bride and groom. Miss Paylor was visiting friends in this city at the time of her marriage. It is said her relatives in North Carolina knew absolutely nothing regarding her intentions. Mr. Wheatley came on here to meet her and the couple repaired quietly to the home of the minister, where the ceremony was performed. The young couple left Saturday night for North Carolina, where they will reside in the future.

—Durham Special, August 20: There was a strike of the printing force of the Durham Daily Sun this morning. Saturday afternoon the four printers made a demand for nine-hour day with pay as before, for ten hours. Mr. J. A. Robinson, the editor and owner, took the matter under consideration. This morning the demand was again made on him and he said that he was not ready to decide at this time. The printers said that they were ready and if there was not a decision at once that they would quit work. No answer was given and the four printers quit work at once. This office is non-union and there were four printers doing the work in the composition department. To-day the editor and one of the local men went to the printers' cases and the other local man was on the streets furnishing copy. They claim that men will soon be here to take the places of those who have quit work and in the meantime the present force can tide over and the paper will appear as usual.

—Hamlet special, Aug. 20: Yesterday morning, between midnight and day, Hamlet was again visited by safe-crackers. Two safes were attacked and one of them robbed of its contents. At 1:25 o'clock Mr. A. S. Cowan, who lives near the business section of the town, heard a noise at the rear of his house. Upon going out he discovered that the noise came from the rear of Dr. Biggs' drug store. He crept near and found that some one was attempting to break open the safe, which had been carried into the back yard. It was very dark, as the electric lights are out after 10 o'clock, and Mr. Cowan could not see any one, but shot in the direction of the hammering. There being a high, close fence between him and the burglar, he could but shoot to scare, but the shot frightened the thieves and they ran without getting into the safe. Later, however, they were more successful, as the store of J. A. Nicholson, colored, was entered and the safe broken open. About $30 in cash was secured here. The store of E. E. McAllister, colored, was entered and several pairs of shoes stolen. It is obvious that the thieves were amateurs and not professionals, as an old axe, taken from Mr. Cowan's back yard was used in trying to break the safe of Dr. Biggs. Just before closing Saturday night a strange negro entered the drug store and asked for a watch. He was told that he would have to return again as the watches were locked up in the safe, and it is supposed that he belonged to the gang. There is no clue to the guilty parties up to this time.

—Kings Mountain Special, August, what appears to have reached here of what apepars to have been the cowardly, cold-blooded murder last Wednesday evening, near Morganton, of Parris Burton, a quiet, inoffensive farmer, who lived about four miles above here on the Cherryville road, by his brother, Josh Burton. About ten days ago Parris and Josh Burton, brothers, started on a trip into the mountains above Morganton to look at some land which Parris was negotiating for. On the way back home they fell in with a man by the name of Green and a woman walking. Green told them he wanted work and Parris employed him to help gather his crop. Josh hired, the woman to cook for him. After they had traveled together some distance, Josh, who was sitting in the rear of the wagon with the woman, became boisterous and Parris asked him to behave himself while in his wagon and on the public road. Nothing more was said, but a few minutes later Green and Parris Burton saw Josh put a shell into his gun, but thought nothing of that until he fired, knocking Parris out on the double-trees. The horses took fright and ran several hundred yards when Green stopped them. He found the entire load had entered Parris Burton's hip and ranged down the thigh. Josh Burton and the woman took to the woods, but were caught later and are now in Morganton jail. Green brought Parris on to his home, arriving there Friday morning. The wounded man died that evening. An old grudge of eight or ten years' standing is supposed to be the cause of the tragedy. About ten years ago Josh Burton was convicted of betraying a daughter of Parris' and served a term in the penitentiary for it. He has an unsavory reputation. The dead man leaves a wife and seven or eight children. He was between 50 and 60 years of age.

BICYCLE THIEF RETURNED.

Negro Awheel Brought from Fayetteville by Constable Savage.

Constable W. B. Savage returned last night from Fayetteville bringing with him the negro Arthur Waugh, charged with the larceny of a bicycle from another negro in this city Saturday. Waugh sold the machine to Mr. A. A. Rackley, section master for the A. C. L., at Currie, for $10, and soon invested a part of the proceeds in a pair of patent leather shoes and a brand new suit of overalls with which he bedecked himself and started out to his home in Mt. Airy. Meantime Mr. Rackley discovered that the wheel had been stolen and the Fayetteville officers were put wise with the result that Waugh was arrested. He confessed everything to Constable Savage yesterday and the wheel was forwarded to Justice Bornemann by express. Waugh was placed in jail last night and will have preliminary trial before Justice Bornemann Friday morning at 8 o'clock.

In this connection the County Commissioners object to the criticism that was passed upon them in yesterday's paper, stating that they are always willing to bear reasonable expenses for the return of criminals to the county, but at the same time the law should be observed; that is a warrant should be certified to the officer in the county where the prisoner has been apprehended and he is to return him to this county and be compensated for the same as is prescribed in the law. However, the Commissoners yesterday stated that when any special object was to be attained in sending a home officer for a prisoner for identification and the like, they would not hesitate to bear any reasonable expense and this may be accepted as final in the future. In the present case, the necessity for raising a private subscription arose through a misunderstanding on the part of the Chairman of the Board.

LOCAL DOTS.

—Services First Church of Christ, Scientist, this evening at 8:15 o'clock, Odd Fellows' building, second floor. All are invited.

—There were five cases all told before the Mayor yesterday, but all were for trifling offences, the Mayor was in good humor and they were all let off with the costs.

—The brig Alcaea, which arrived Monday night, is discharging cargo of salt at the Seaboard Air Line. The schooner Annie C. Grace, which arrived the same time, is discharging cargo of fertilizers also at the Seaboard Air Line.

—An excursion of 400 people reached the city yesterday from Dunn, via the A. & Y. Railroad, returning last night. Four excursions are due here Saturday of this week and one and two every day until that time.

—Mr. H. L. Fennell, special agent here for the Greensboro Life Insurance Company, has received a check for $2,000 being the amount of the policy carried in his company on the life of the late Justin M. Bunting and payable to his estate. The claim will be settled at once.

—Mr. J. W. Stanley, of Goldsboro, who was here yesterday, says in connection with the finding of the body of the young girl near Fremont that the newspaper accounts of the affair were very much exaggerated. That there was no evidence that the young girl had been foully dealt with.

—A negro arrested Monday night by Officer E. Piner at Front and Princess streets, charged with being drunk and down, took French leave while he with other prisoners were being searched at the police station soon after being sent up in the patrol. The negro appeared to be very drunk until he found that nobody was looking and he sailed out of the police station like a shot out of a cannon. The negro works on the beach and will be returned for trial this week.

BOARD OF ALDERMEN HELD SPICY SESSION

liams. The same restrictions as to exclusive rights were placed upon the granting of the application of the Atlantic Coast Line as to the Red Cross street dock.

City Engineer Matthew submitted an estimate of the cost of the proposed drainage work from Ninth and Princess to Tenth and Princess; on Tenth from Princess to Market street; from a point on Tenth street to Eleventh street; from Eleventh to Thirteenth street and from Thirteenth street to Macomber's ditch. The City Engineer recommended 12-inch pipe from Ninth and Princess streets to which Alderman Johnson strenuously objected, saying 15-inch pipe would be required to carry off the water from there, the opinion of the City Engineer to the contrary notwithstanding. It seems there was some feeling on the Board about the matter and Mr. Johnson charged Mr. W. H. Yopp and the Mayor Pro Tem. with bad faith, inasmuch as they had visited the scene and he understood that they had agreed to a 15-inch pipe. Alderman Yopp arising to a point of personal privilege later, explained his connection with the affair and confessed a change of opinion in deference to the judgment of the Cty Engineer, the Superintendent of Streets and Mr. W. A. Willson, Jr., the chief property owner at interest.

A Heated Colloquy.

During the course of the argument Mr. Johnson made a pass at Alderman J. O. Brown, who sat just across the table from him, charging that Mr. Brown would oppose anything that he (Mr. Johnson) advocated. Mr. Brown was quickly on his feet and characterized any statement that he would oppose any measure simply because it was advocated by a colleague and for no other reason, as a lie. This was with some heat. Alderman Brown pounded the table and said he had not opened his mouth on this question. He could not understand the aspersion cast by Mr. Johnson. The latter member vigorously defended his position and Hall Officer Smith moved toward the Aldermanic circle to put down any possible personal trouble that might arise. The Mayor Pro Tem. rapped loudly for order and the belligerent members finally understood one another better and each sat down with a thump.

Dig at the City Engineer.

The discussion continued and Alderman Johnson argued that regardless of the city engineer, who was liable to mistakes as much as anybody else, there should be 15-inch pipe on that street. The City Engineer, he said, had made mistakes before and was liable to make a mistake in this instance. The City Engineer challenged the latter statement of Mr. Johnson and asked the Alderman to cite a specific instance where a mistake had been made in the official discharge of his duty. The Mayor ruled Mr. Matthew out of order on a point by Mr. Yopp but said that he would later be given an opportunity of vindicating himself. The motion was then called on a substitute of Mr. Johnson that the pipe be 15-inch instead of 12-inch. A vote resulted in a tie of four to four, those voting for Mr. Johnson's amendment being Messrs. Moore, Johnson, Price and King. It was up to the chair to break the tie and Mayor Pro Tem. O'Brien voted in favor of the 12-inch pipe as recommended by the City Engineer, saying there was no use of having a city engineer unless it was proposed to abide by what he said. The vote was then taken on the recommendation of the committee, the total cost of the pipe being $1,407.58. The project as recommended by the committee was adopted and an appropriation made carrying out the plan.

Later City Engineer Matthew was given opportunity of insisting upon Alderman Johnson's specifying an instance where he had made a mistake. Several members objected, Alderman Yopp making the point that it was a personal matter and the gentlemen should settle the difference on the outside. The Mayor ruled that the City Engineer had been attacked in open meeting and should have an opportunity of vindicating himself in the same presence. Mr. Johnson and Mr. Matthew then exchanged a few inquiries and responses and the difference was patched up between them without undue feeling.

To Fill a Ravine.

Alderman Brown explained the conditions as to the ravine at Front and Wright streets and said the City Engineer had decided that an appropriation of $1,000 would be necessary for a retaining wall. The committee had previously been given $350 for filling in this ravine, making the total cost $1,350. The appropriation was made and Alderman Brown said he would see to getting concurrence by the Board of Audit and Finance.

The State Fair Exhibit.

Upon motion of Alderman Price, who explained the proposition, $100 was appropriated toward the Marchants' Association county exhibit at the State Fair, provided the county

shelving the books. The matter was deferred to a later meeting, several members of the Board expressing the opinion that the library is proving a rather expensive luxury.

Mr. C. H. Dock, contractor for furnishing the city with macadam, was present and asked for instruction as to closing down the quarry after the present contract is completed. Mr. O'Brien, chairman of the Streets and Wharves Committee, was present and urged that a few thousand extra tons be allowed to complete the Red Cross street work to the hospital. The Board took the position that there were no funds available for this work and ordered that no more bills for rock would be paid after the present contract has expired. The work will now be stopped at Eighth and Red Cross streets. The Board then passed a few bills for current expenses and adjourned subject to call of the chairman. The Aldermen and others in the meantime had departed.

make a similar appropriation for the same purpose.

Christian Science Request.

Alderman Price also brought to the attention of the Board a request from the First Church of Christ, Scientist, asking for use of a part of the second floor of the City Hall in which to hold services after October 1st., as they are building a new church and cannot obtain a lease on their present quarters after Oct. 1st. unless they rent for a whole year. Alderman W. H. Yopp opposed the permission on the ground that the denomination was well able to pay rent for its quarters and the services would interfere with the operation of the public library. The matter was referred to the Library Committee for investigation.

Contract with Roger Moore's Sons & Co., for paving Chesnut street, was read and passed, subject to approval of the City Attorney.

Shot at the Finance Clerk.

Alderman Moore took exception to what he characterized as an unwarranted change in the classification of the Public Buildings budget by the Clerk of the Board of Audit and Finance, charging that official with undue meddling in affairs which belonged to the Board of Aldermen. The Board of Aldermen had already gone on record as opposed to any change in the classification of the budget and he, for one, was not in favor of submitting to any interference. Mr. Moore explained that fire and market houses, formerly under his jurisdiction as chairman of the Public Building Committee, had been taken out of that department and transferred to another. No action, however, was taken on Mr. Moore's complaint.

The matter of the market house in Fifth Ward was brought up by Chairman King and referred to the Public Buildins Committee for report on bids at the next meeting. There was a motion to refer with "power to act," but instantly the Standard Oil tank popped into the Aldermanic vision and there was an acclaim of protest. The action as stated above was taken for report at the next meeting.

The Board renewed its appropriation of $10 per month for one of the street laborers to give attention to the city live stock after work hours. The same action was taken in regard to roof of shed for the city carts, etc., in the city pound.

The Crematory Question.

Mr. George N. Bell, Jr., of the Dixon Garbage Crematory Co., of Toledo, Ohio, was introduced by Mr. King and submited a proposition to install a twin 30-ton plant here at a cost of $11,970. Mr. Bell made a very clear, concise statement of his proposition, agreeing to execute a bond of $5,000 to secure the fulfillment of the contract.

There were several motions but one by Mr. Johnson finally prevailed that the Sanitary Committee advertise in the Municipal Journal and Manufacturters' Record, asking for bids on a crematory and that in the meantime a committee be appointed to visit other cities and find out what is best to do in the premises. This action was without prejudice to Mr. Bell and company for whom the Board professed most kindly consideration. Mr. Bell was asked to go before the Board of Audit and Finance the same evening and lay his proposition before that body.

Chairman O'Brien called attention to the very unsanitary condition of the court back of the north wing of the City Hall building where the police horses are kept. The Streets and Wharves Committee was directed to improve the place with macadam. There was then a clamor for adjournment and a vote to that effect was carried as members were leaving the inside of the railing.

MISS PAULINE CANADY DEAD.

Remains Brought Here for Interment Yesterday—Wilmington Family.

Friends in this city learned with great sorrow yesterday of the death of Miss Pauline Canady, daughter of Mr. and Mrs. J. S. Canady, formerly of this city, but now of Swansboro, Onslow county. The young woman had just reached young womanhood and was loved and esteemed by all in the circle of her acquaintance. Until a few years ago the family resided here and Miss Canady was well known and much admired by very many of the young people. Her death came after a lingering illness of a year and while it was not unexpected, it came as a sad blow to the family and friends.

Besides the deeply bereaved parents, Miss Canady is survived by three sisters and two brothers, who haye the sympathy of many friends. The sisters and brothers are Mrs. W. H. Pittman and Mrs. W. T. Mercer, of this city; Miss Ruth Canady, of Swansboro, and Messrs. W. A. Canady and J. S. Canady, Jr., of this city. The remains arrived in the city on the Newbern train yesterday afternoon and the funeral was conducted by Rev. Fred. D. Hale, D. D., of the First Baptist church, from the residence of Mrs. Mercer, No. 212 South Second street, and the remains were interred in Oakdale.

In Quest of Burglars.

Police Sergeant Hardee and Special Officer C. T. Croom a little after last midnight responded in a buggy to a call at the police station that burglars were in the house of a Mrs. Bell, who lives on Ninth, between Chesnut and Princess streets. Arriving on the scene the officers found that the house had been entered by parties who removed a window sash and the footprints of the burglar were found on a white counterpane in an unoccupied room of the house. The burglar, however, had made his escape before the officers arrived.

Geological Sampling Station.

Superintendent Wm. F. Robertson, of the Clarendon Water Works Company, has been advised by Mr. Horatio N. Parker, Assistant Hydrographer of the U. S. Geological Department, that he has recommended that the sampling station for testing the river waters for the government be established here. Samples of the water will be taken each day and forwarded to Washington so that at stated intervals the composition of the water may be known from analysis by experts.

ASSAULT ON ELDERLY MAN.

Mr. Richard Reaves Violently Set Upon by Fellow Employe.

In the heat of a political argument over the relative strength of the two candidates for county treasurer in the approaching primary, it is said, Mr. Richard Reaves, the venerable street sweeper, whose faithful services were recently recognized by citizens in the presentation of a handsome gold watch, was assaulted yesterday morning about noon by a fellow-employe, D. B. Lucas, a middle-aged man, nearly in front of Springer's hardware store, on Front street. The weapon used was one of the heavy, long-handled brooms used in the street cleaning department, and Mr. Reaves received an ugly gash in the head, necessitating his removal at once to the hospital from whence it was later reported that the old man was severely but not seriously injured. He was later taken to his home in the southern part of the city.

Lucas was arrested by Officer J. R. Minshew and a charge of an assault with a deadly weapon was entered against him at the police station. He will be tried as soon as the injured man is able to appear against him. The assault was witnessed by several on the street and a crowd soon collected. Much indignation was expressed that a more able-bodied man should have made such an assault upon Mr. Reaves, but there was no offers of personal violence to the other street employe. It is said that Mr. Reaves, in the heat of argument, called Lucas a liar and that precipitated the trouble.

Convention Doesn't Care Whether Bryan Likes It—Exciting Session and Several Fights—Refuses to Demand Sullivan's Resignation.

(By Wire to The Morning Star.)

Peoria, Ill., August 21.—By a vote 1,038 to 570, the Democratic convention today placed upon the table the request of William J. Bryan for the resignation of Roger Sullivan, from the national committee. Despite the fact that Mr. Bryan had declared that he did not wish to be indorsed unless Sullivan was repudiated, the convention declared him to be the one and only man capable of leading the Democratic party to victory in 1908. The endorsement of Bryan and the tabling of the motion calling for the resignation of Mr. Sullivan came at the close of a most exciting session of the convention in which there were several fights and throughout which confusion reigned supreme.

The committee on resolutions declined to report a plank calling for the resignation of Sullivan and the debate followed upon a motion made in the convention by Judge Owen Thompson, of Jacksonville, calling for Sullivan's resignation. It had been arranged that each side should have 45 minutes in which to present its side of the case and Judge Thompson was the first advocate of the cause of Mr. Bryan. He aroused the hostility of Sullivan's friends by the unsparing manner in which he dealt upon the last Democratic convention at Springfield. He strode up and down the platform, his face white with wrath and his form shaking with intensity of feeling. His caustic criticisms finally lost him the ear of the convention and he might never have been able to conclude his speech if Sullivan had not personally requested quiet.

Sullivan, who followed Thompson, and who was the first speaker in his own behalf, declared that the ear of Mr. Bryan had been poisoned against him and that the demand for his resignation sprang from his personal enemies.

Great feeling was displayed on both sides during the debate; at times personalities of a disagreeable character was made by various speakers. The end came on a motion made by ex-Congressman Kern, of Bellville, that the request for the resignation of Sullivan be laid on the table. Feeling during the roll call on this proposition ran very high.

The Bryan resolution came last and was worded as follows:

"For President of the United States in 1908 the Democrats of Illinois, first and last, have but one choice and that man is William Jennings Bryan.

"In this period of official hypocrisy, political corruption and cowardly surrender of principle, to expediency whenever Republicanism hold sway, William Jennings Bryan towers above all Americans as fittest to lead in the fight to rescue our government from the hands of special interests and restore it to all the people. The Democracy of Illinois eagerly looks forward to 1908 for the opportunity to join with her sister States in nominating and triumphantly electing him President of the United States.

"The time calls for a President of Bryan's honesty sincerity and political philosophy."

Other planks in the platfoam congratulated the Democrats of Illinois on the "brilliant prospects for success in the coming Presidential and Congressional elections. The revision of the present tariff laws was demanded. The use of large combination funds for the "corruption of the electors was denounced and the passage of a law preventing contributions to campaign funds by insurance companies was urged.

The recent Congress was denounced for its surrender to the meat trust, railroads and the Standard Oil Company.

Liberal wages, reasonable hours and the best possible condi. ons for labor were demanded. The right of laboring men to petition Congress was declared to be something that should be sacredly guarded.

Child-labor and the importaton of Chnese labor were denounced. The eight-hour law and anti-injunction law asked from Congress by the laboring men were declared to be desirable and the enactment is urged.

Election of Senators by dierct vote of the people was urged.

Considerable excitement was caused at the State campaign meeting at Greenville, S. C., yesterday when A. C. Jones, prohibition candidate for Governor, slapped the face of Joel E. General Manager wing, of the Dark District Tobacco Growers' Association at Nashville, Tenn., has ordered an advance of about fifty cents per hundred pounds in the price of all medium and good grades of dark leaf tobacco. The order applies to the whole of the dark district and is brought about by shortage and unfavorable condition of the growing crop.

The Birmingham, Ala., unions have voted to call off the strike of miners which has been in progress at the mines of the four furnace companies in that State since July 25, 1904, has affected 6,000 men, and has cost the miners' organization over $1,000,000.

The bank of Mentor, Minn., was robbed yesterday of $1,200 by men who blew open the safe. The burglars escaped.

A quarantine line was yesterday thrown about the district at New Iberia, La., comprising six square blocks, in which the patient suffering from yellow fever is located. Every house in the district has been fumigated. Additional disinfectors arrived from New Orleans and five gangs are at work in the neighborhood of the quarantine section. Confidence is complete. The patient is expected to be up in a day or two.

Theodore and Kermit Roosevelt, sons of the President, slipped quietly into Chicago yesterday and spent the day sight-seeing. The brothers, accompanied by two college friends of Theodore, Jr., are en route to South Dakota, for a hunting and fishing trip. They were the guests of Dr. F. H. Smith. They were entertained at luncheon by Henry C. Moir, after which they were taken for an automobile ride through the parks. They left for the West at 8 o'clock last night.

The protest of the New York National League Baseball Club against the action of Umpire Johnstone in forfeiting the game of August 7 at the Polo grounds to Chicago when the management of the New York club denied the umpire admittance to the grounds, was formally disapproved yesterday at New York by President Pulliam, of the National League. Mr. Pulliam declares that Johnstone was entirely within his rights and that "the silly and unsportsmanlike protest of the New York Club is dismissed and the record remains unchanged."

At Philadelphia yesterday five hundred delegates representing several thousand negro physicians, dentists and pharmacists throughout the United States met and began the eight annual convention of the National Medical Association. The greater part of the day was devoted to routine business. The annual adress of the president was made by Dr. R. mmett Jones, of Richmond Va., and the reports of various other officers and of committee were also read. Dr. T. G. Walker, of Baton Rouge, La., read a paper on the history of the association and addresses on medical subjects were made by a number of the delegates.

Prof. Connor graduated from he Agricultural college, the University of Missouri, was assistant in that institution then assistant professor of agriculture everal years in Clemson College. He has been in this State several weeks assisting in farmers' institute work.

Judge Purnell, of the Federal Court, has decided to order an immediate sale of the Cape Fear Power Company's plant on Buckhorn, being constructed for supplying electric power for manufacturing and other purposes to Fayetteville, N. C. He heard argument by counsel on the petition of Receiver C. H. Belvin and Eugene Maxwell, for the plant to be sold in its unfinished condition. Counsel for the bondholders advocated immediate sale and counsel for the Cape Fear Power Co., and other interested parties insisted that the plant be completed before the sale to get the best settlement of interests. Receivers reported their belief that it would require $60,000 to complete. There was a proposition to complete it for $11,500 but this was discredited so that after argument the judge directed counsel to draw an order for the sale which will take place at some date within sixty days.

HARRY THAW HAS VISITORS.

Two Alienists Called But Made No Examination of Prisoner.

(By Wire to The Morning Star.)

New York, August 21.—Drs. D. D. Evans, of Morris Plains, N. J., and C. J. Wagner, of this city, called on Harry K. Thaw, who shot and instantly killed Stanford White, in the Tombs to-day. Both physicians are known as alienists, and Dr. Evans figured in the Terranova trial. Clifford W. Hartridge, counsel for Thaw, accompanied the doctors.

The visit gave rise to reports that a mental examination of Thaw was to be made, but Dr. Frank Maguire. the Tombs' physician, who went to Thaw's cell when informed of the visit, was assured that this was not so. Miss May McKenzie, the actress visited Thaw to-day in company with Mrs. Thaw. This is the first time that Miss McKenzie, who is expected to be a witness in the case, had seen Thaw since his arrest though she has tried on several occasions to do so. Mrs. Van Rensselaer Cruger also visited the Tombs to-day and asked permission to visit Thaw. She was told she would have to get a pass and replied that she would do so to-morrow. Mrs. Cruger would not say why she wished to see Thaw.

CUBA ON VERGE OF CIVIL WAR.

Insurgent Bands Numerous and Many Towns Helpless.

(By Cable to The Morning Star.)

Havana, August 21.—The indications tonight are that the revolution in western Cuba already has practically reached its maximum. The government and people generally believe that the movement has received about all the cessions it will be likely to gain. The pormptness of the government in arresting suspected leaders and plotters in Havana and elsewhere and in sending reinforcements to the disturbed districts has had an excellent effect in strengthening public confidence and overawing sympathizers with the movement.

On the other hand, and notwithstanding the quietude in the Pinar del Rio region, throughout today peaceable inhabitants of the cities of Pinar del Rio, Consolacion Del Sur, San Juan del Martinez and other western towns are in hourly apprehension of the attack and occupation of those places. The fact that probably one thousand insurgents are tending to concentrate in the Province of Pinar del Rio upon towns inadequately guarded by small detachments of rural guards, mostly inexperenced in warfare, makes the situation grave; but as the insurgents have not assumed any strongly offensive attitude or interferred with trains carying roops, horses, and supplies, it is inferred that they are not prepared or lack the nerve to try for control of the territory.

An official of the western railroad informed the Associated Press tonight that absolutely no trouble had been encountered anywhere along the line which is the main artery of the Province of Pinar del Rio.

There have been many rumors today of fights at various points in the Province of Pinar del Rio, but they have not been confirmed by government or press dispatches. However, night attacks on the city of Pinar del Rio and other towns continue to be regarded as a probability. The government wires are working freely. Pinar del Rio Consolacion del Sur and San Juan del Martinez were reinforced today by 200 troops. The loyal citizens are well equipped to repel invasion.

There was some fighting today in Havana Province, and more is hourly expected. A detachment of rural guards encountered a portion of Banderas band with which shots were exchanged at close range. One insurgent was killed and the others scattered. Fifty rural guards are in pursuit of the main band.

It is reported that the town of Guines, twenty miles south of Havana was this evening peacefully occupied by a band of insurgents. Guines is the center of the American truck farming industry, but the farmers have not been molested.

At Mahoney City, Pa., yesterday an explosion of gas in the Vulcan colliery of the Mill Creek Coal Company. Two men were killed and five badly injured. Most of the victims are foreigners.

SEABOARD CONDUCTORS.

Meeting Behind Closed Doors to Fix New Wage Scale.

(By Wire to The Morning Star.)

Norfolk, Va., August 21.—Representatives of the Railway Conductors Association of the Seaboard Air Line from Raleigh, N. C., Jacksonville, Fla., Birmingham, Ala., Savannah Ga. Atlanta, Americus, Ga, Monroe and Hamlet N. C., are in session behind closed doors in Portsmouth, aV., today preparing a new wage scale and rules governing the conductors on the entire Seaboard system which will in all probability be presented to President Alfred Walters of the Seaboard in Norfolk tomorrow. John A. Dodson, of Portsmuth, business agent of the Seaboard conductors, is presiding at the meeting. The cnductors will ask an increase in wages but what this increase will be has not yet been announced.

LABOR DAY EXCURSION.

The Trip That Beats Them All.

Labor Day, Monday September 3rd, is the time when you will be given the opportunity of taking that big excursion to Newbern via the fast and famous Atlantic Coast Line. If you want to enjoy the finest excursion of the season just cast care aside and throw your troubles to the four winds and follow the Big Crowd on a day's outing which is unequalled by any other trip of the season. A chance of this kind is not a frequent happening. It is seldom that Wilmingtonians have a chance to take a trip of this kind and now is a good time for you to make up your minds to go otherwise you will be storing up one long lingering regret. Trains leave Depot at 7:30 A. M. and will leave Newbern on the return at 10 P. M. There will be separate cars for white and colored passengers. Round trip only $1.25. This is a cheap rate such as is not offered every day. aug 18-tf**

NEGROES BARRED FROM CANTON

Manufacturing Town Built in North Carolina Mountains by Northerners Will Not Allow Coored People to Stay Over Night.

(Raleigh News and Observer.-

Asheville, N. C., Aug. 18.—According to authentic information received here the little town of Canton, where is building the great $1,000,000 pulp plant of the Champian Fibre Company, has never in the memory of man, sheltered a negro over night. This fact was recently brought out when an effort was made to employ negro labor and it was found impossible to secure this class of labor at Canton. The negro will not go to Canton. They are said to be aware of the barrier that Canton's citizens have raised and were not desirous of looking for trouble. Inquiry this week of a prominent citizen of Waynesville, a few miles west of Canton, relative to this absence of negroes in Canton at night, resulted in the statement that not in the memory of man had a negro spent the night in Canton. Continuing this gentleman said that it was an old story that negroes were not allowed in Canton over night. It is said that there has never been any race trouble in the little burg; that when a negro is seen there after sundown he is quietly asked what his business is and incidentally informed that it would not be healthy for him to remain over night. This gentle warning has hitherto been sufficient. There is said to be no objection to negroes working in Canton during the day. In fact negroes pass through Canton every day and frequently stop. They are never molested, but they can't stay over night. It is said that recently officials of the town endeavored to reason with the citizens that it was time to raise the ban against the negroes, but without result. The old Texas sign of "nigger don't let the sun go down on your head in this country" still applies at Canton. Aside from this there are at least two other places in North Carolina where negroes are not allowed to remain over night. These are the counties of Mitchell and Madison. Several years ago when the telephone line was building through Madison negroes were employed on the work and the company building the line was put to some inconvenience by the citizens of Madison refusing to allow negroes to stay in the county over night. The negro laborers were forced to go beyond the Madison county line to spend their nights.

A FATAL MISTAKE.

Former Lumberton Man Killed in Florida by Turpentine Man.

(By Wire to The Morning Star.)

Ocala, Fla., Aug. 19.—R. E. Wishart, of this city. was killed at at San Antonio, Pasco county, this morning, by a turpentine man named Burton.

Wishart operated a tie camp at Ehern, and with his two daughters went to San Antonio to have dental work done for one. While the young lady was in the dentist's chair and Wishart was waiting in the office, Burton, who had a grievance against the dentist, whose name is Nichols, came to the door and asked if Nichols was in. Wishart replied that he was, and Burton, thinking it was Nichols who spoke, fired a load from a shotgun into Wishart's heart, killing him instantly. As Burton fired he called out: "Nichols, you have ruined my wife."

Wishart came to Florida from Lumberton, N. C., eight years ago and owned property on the west coast.

LABELS ON CANNED GOODS.

Army Officers and Soldiers in Philippines Demand Dates on Them.

(By Wire to The Morning Star.)

Washington, August 20.—The demand for the placing of labels on canned goods, showing the date of canning, has received reinforcement from army officers in the Philippine Islands. Colonel C. A. Williams, commanding the Department of the Visayas, says in a report to the War Department, made public to-day, that most edible canned or tinned goods deteriorate with age and the chief commissary recommends that all such purchased for the army be required to bear a poster or label showing name and place of cannery and month and year of canning.

As many officers and soldiers must often subsist largely on canned goods in the Philippines, he urges that the utmost care be taken to provide food free from preservatives and coloring matter, and deterioration due to old age.

ITALIAN LABOR IS NO GOOD

Men Totally Irresponsible and Unsatisfactory to Builders of South & Western Railroad—Peonage Charges Not Warranted.

(Charlotte Observer.)

Asheville, Aug. 20.—The hearing before a United States commissioner at Marion of peonage charges against certain contractors of the South & Western Railway next Saturday, August 25, bids fair to be interetsing. The preliminary was set for several days ago, but a postponment was deemed advisable and the date was set for August 25th. District Attorney Holton and his assistant will represent the government and all the evidence of peonage practices obtainable will be presented. There is said to be some absolute evidence that peonage has existed on the works of the South & Western between Marion and Spruce Pine, where hundreds of Italians are employed, but those familiar with conditions at the construction camps hold that there are mitigating circumstances and that, while the South & Western may be technically guilty, the dagoes are by no means blameless.

A gentleman here Saturday from Marion, who is conversant with conditions on the works of the South & Western, declared that from personal knowledge the Italians were a hard lot to handle and that the railroad lost hundreds of dollars by the foreigners' utter disregard of their obligations and promises. It is said that the railroad in order to secure all the men possible to work on the construction of the road, advances money for railroad fare and other necessaries and that the Italians who are by no means ignorant of the laws, after working a few days, skip out or refuse to work and the company must bear the loss. This gentleman said that it is no unusual thing for the Italians even on fair days to refuse to leave their camps and go to work and that often, after working a few hours during a day, bunches of them will lay down their picks and shovels and sit around idling and smoking cigarettes, refusing to work and totally irresponsible. It is said that there are two sides to the trouble on the works of the South & Western and that the investigation will doubtless develop an unsatisfactory situation. There is no dependence to be placed in the Italians. It is a miserable class of labor that the railroad now has to deal with.

THE COTTON MARKET.

New York, August 21.—The cotton market was active again to-day and added slightly to the gain of yesterday, the close being steady at a net advance of 2 to 5 points. Sales for the day were estimated at 400,000 bales.

The market opened steady at an advance of 2 to 6 points in response to higher Liverpool cables covering by local shorts and support from Wall Street bulls. There was a good deal of cotton offering through wire and commission houses with Southern connections, however, and the market eased off shortly after the opening, showing a net loss of about 7 to 8 points on the active months at the end of the first hour. At this level Southern offerings were a little less pressing and he market developed a steadier tone on continued Wall Steet support and covering of shorts, part of which seemed to be for the account of some of the stronger local interests. The weekly report of the weather bureau was considered excellent, but did not check the reactionary tendency of the market which carried prices to a net advance of about 5 to 6 points. There was some irregularity toward the close owing to the realizing of buyers on the early break, but the market left off within 2 or 3 points of the top. Southern spot markets were 1/16c higher to 1/4c lower. Some private wires reported a better spot demand for export, but crop accounts continued bearish and the weather reports were considered very favorable.

Receipts at the ports to-day 10,109 bales against 8,089 bales last week and 13,268 bales last year. For the week 40,000 bales against 31,193 last week and 53,002 last year. To-day's receipts at New Orleans 256 bales against 2,253 last year, and at Houston 9,988 bales against 9.605 bales last year.

DRYGOODS MARKET.

New Yok, August 21.—The dry goods market was firm to-day with an active trade going on in the jobbing houses. A white goods sale was a feature of the day's business and a large volume of goods was removed. Print cloths were firm and some lines for delivery within thirty days were very scarce. Cotton yarns were steady on the finer numbers but weak on the coarser numbers. A moderate business was doing. About 1,500 bales of 3.50-yard sheeting have been sold. Red Sea ports and an active South American (east coast) trade is in progress.

FOR THE LITTLE ONES.

How Sea Birds Quench Their Thirst Far From Land.

"When I was a cabin boy," said an elderly sailor, "I often used to wonder, seein' birds thousands of miles out at sea, what they done for fresh water when they got thirsty.

"One day a squall answered that question for me. It was a hot and glitterin' day in the tropics, and in the clear blue sky overhead a black rain cloud appeared all of a sudden. Then out of empty space over 100 sea birds came dartin' from every direction. They got under the rain cloud, and they waited there for about ten minutes, circlin' round, and when the rain began to fall they throwed their heads back, and they drank their fill.

"In the tropics, where the great sea birds sail thousands of miles away from shore, they get their drinkin' water in that way. They smell out a storm a long way off. They travel 100 miles maybe to get under it, and they swallow enough raindrops to keep them goin'."

A Pretty Name For a Girl.

"You didn't think of the work we have to do when you christened it," said the Ebbew Vale magistrate's clerk wearily on Saturday when an applicant for a certificate of exemption from vaccination stated that his child's name was Caereiraelbbwyneth.

The Applicant—Can't you spell it?

The Clerk—I may get at it if you give me time. Is it a boy or a girl?

The Applicant—A girl.

"What is the meaning of the name?"

"I will tell you when I have more time."

A Welsh minister in court explained that the literal meaning of the name was "snow lover."—London Mail.

A Trick of the Trade.

Many of the local curiosity shops planted in the back streets of most county and country towns are simply kept up by large London firms who, from a prolonged study of human nature, have discovered that people who are shy of buying old furniture or old silver in Bond street or Piccadilly are ready and eager purchasers of precisely the same objects, at a rather higher price, when they come upon them in the back streets of a country town.—English Country Gentleman.

LEADER MURPHY FOR WM. R. HEARST

Tammany Boss Says There is No Sentiment for Jerome for Governor.

MONEY BACKS HEARST BOOM

So Jerome Declares in Denouncing Murphy—Tammany Chief is for Hearst If Organization Will Stand For Him.

(By Wire to The Morning Star.)

New York, August 21.—Charles F. Murphy, the leader of Tammany Hall, to-day said he had not observed any sentiment in Tammany for the nomination of District Attorney William Travers Jerome, for Governor by the Democratic State convention, but there was, he said, plenty of sentiment for W. R. Hearst. Mr. Murphy declared that he was not committed to any candidate, but it was the rule of Tammany to be guided by the sentiment of the organization and he would be guided by it at the State convention. Mr. Murphy said the Tammany delegates to the convention would be bound by the unit rule.

District Attorney Jerome to-night gave out the following statement:

"It is no surprise to me to find Murphy practically declaring for Hearst. Birds of a feather flock together and when a person intellectually sterile, socially vulgar, and morally obtuse, insults the decent people of the State, respective of party, by seeking the nomination of a political party by advancing dollars and not ideas, and by methods akin to those of the blackmaier, no thinking man could doubt where Murphy could be found. I should fear I had lost all my ideals if I found men of this type supporting me, except under absolute compulsion. If I ever come to have any influence in the Democratic party it will be used to drive out of it base bosses of this type. Both the Democratic and Republican parties have long enough been disgraced and dominated by men of this type, controlling party organization."

BIG STEAMER IS DOOMED.

Being Crushed on Coral Reef Where She Stranded Monday.

(By Cable to The Morning Star.)

Honolulu, August 21.—The stranded steamer Manchuria, off Rabbit Island, is suffering great damage and those at the scene of the wreck think the vessel is doomed. Four of her eight boilers have been rendered useless, rpeated shocks against the reef having damaged the foundations of the boilers. The port engine also is useless on account of the breaking of its main pipe.

Apparently the steamer rests amidship on a patch of hard coral over which she rolls and pitches as on a pivot and pounding especially hard on the port side. Every shock shakes her from bow to stern. Captain Saunders says the only chance to save the ship is to float her soon. It is doubtful whether there is power enough in Honolulu to do so and aid from San Francisco is wanted.

Captain Saunders shows that he is suffering from the strain he is under, but he still assumes all the blame. He is receiving many expressions of sympathy from the passengers, who are demanding that the steamship company provide them with accommodations.

MR. CANNON FOR PRESIDENT.

Illinois State Convention Enthusiastically Endorses Uncle Joe.

(By Wire to The Morning Star.)

Springfield, Ill., August 21.—Treasurer of State, John S. Smulski; Superintendent of Public Instruction, Francis G. Blair; Trustees of the State University, Mrs. Carrie S. Alexander, Fred Hatch, Alexander McKin, L. L. Lehman.

The foregoing ticket was nominated by the Republicans of Illinois today in a convention which was marked by harmony and good feeling.

The Presidential boom of Speaker Joseph G. Cannon for 1908 which was launched last week by his own Congressional district, was given an enthusiastic endorsement by to-day's convention. The mention of Cannon's name brought the convention to its feet and there was enthusiastic cheering. The convention carried out the will of the people of the State, expressed at the prmaries a few weeks ago, by an unanimous endorsement of Senator Shelby M. Cullom for re-election. Outside of the endorsement of Speaker Cannon for President and Senator Cullom for re-election, there was little of general interest in the convention's proceedings. The fight for State Treasurer was the most spirited of the conflicts but Mr. Smulski won easily on the second ballot.

The resolutions contain an endorsement of President Roosevelt's administration, of the Illinois Senators and Representatives in Congress, and of the administration of Governor Deneen.

FAMINE IS MENACING EARTHQUAKE REGION

Great Catrastophe Left Valparaiso in Terrible Condition—Death Roll 3,000 and Property Loss $100,000,000—One Town Disappeared.

(By Cable to The Morning Star.)

Valparaiso, August 21.—The loss of life by the earthquake of Thursday, August 16, probably will not be short of three thousand, while the property destroyed is estimated at $100,000,000 and possibly is far in excess of that sum.

Order is being maintained with the utmost severity by the military, police and armed citizen patrols, who are empowered to shoot looters on the spot. The authorities are showing the utmost energy i nthe protection of property.

With the first terrible shock of the earthquake buildings collapsed, their walls falling with a tremendous noise. The inmates in many cases were unable to escape. The shock was followed almost immediately by a fierce storm, the wind prostrating walls that had been weakened by the earthquake and these broke trolley wires, which flashed incessantly. The second shock was even more severe than the first. Five minutes afterward fires started in every direction, and the whole town, which had been momentarily in darkness, was illuminated by gigantic flames. The firemen made a desperate fight, though there was little water, as most of the mains had been broken by the earth tremor. The Victoria Theatre and the Naval Club were utterly destroyed, and the National Theatre succumbed to earthquake and fire. The Club de Setiembre, the Church of La Merced, the buildings of the French Fathers, the Navy Department building, the City Hall and many other buildings were destroyed by the earthquake. The destruction by fire, however, was infinitely larger and probably 60 per cent. of the commercial houses were totally ruined. In the Brazil avenue alone nearly thirty blocks of buildings, from three to five stories high, were destroyed.

Famine Threatens Valparaiso.

Santiago, Chile, August 21.—Almost all the foreign ministers here have expressed the condolence of their governments to President Riesco. Valparaiso is demanding that cattle be sent in to avoid the famine, with which the people are menaced.

The population of Santiago was thrown into a condition of extreme alarm last night as a result of the circulation of false news that the observatory had announced a second horrible catastrophe to be imminent. People would not sleep in doors, and large numbers spent the night on the streets and in the squares. The alarm originated from some persons declaring they had seen the black flag, the sign of danger, flying from the observatory, which is situated on San Cristobal hill. The shrieking of steam sirens announcing danger also added to the alarm and the police, instead of calming the people, lost their heads and added to the terror. President Riesco wrote a letter to the director of the observatory asking for an explanation. The director answered that the whole thing was a misapprehension on the part of the people.

Missionary Buildings Destroyed.

New York, August 21.—Two dispatches were received to-day at the office of the Presbyterian Board of Foreign Missions from representatives of the board in Chile. One, dated Valparaiso, was as follows: "Buildings destroyed; missionaries safe."

The other came from Santiago. It was as follows: "Buildings and missionaries safe."

The board has extensive interests in Santiago, including a large school. In Valparaiso the board has co-operated with English residents there and in consequence some uncertainty is felt as to the amount of damage done to property actually belonging to the board.

One Town Totally Disappears.

Valparaiso, August 21.—The greatest damage occurred in the Provinces of Valparaiso and Aconcagua. The town of Abarcas suffered severely. Llx-Llx is reported to have entirely disappeared, and Limache and Hierro Viejo have been almost totally wrecked. At Vina Del Mar three-quarters of the houses are in ruins.

The losses in the entire country are estimated at $50,000,000. The authorities of Valparaiso have taken over the feeding of the people and provisions are being brought in from places that were not destroyed.

Slight earth shocks are continuing. The people have not yet returned to their homes, but are sleeping on the surrounding hills and in the streets and squares. The fires have all been extinguished. More than 100 men taken in the act of committing robbery have been shot.

Earthquake in Ecuador.

Guayquil, August 21.—A heavy shock of earthquake was felt to-day at Quito. The inhabitants ran from their houses in great alarm, fearing a repetition of the Valparaiso disaster. No damage was done.

Sympathy for Sufferers.

Rio De Janeiro, August 21.—There was a solemn session of the International American conference here this morning and the flags of all the republics represented were at half mast over the Monroe palace, the delegates having assembled for the purpose of expressing condolence with the republic of Chile in the distress resulting from the earthquake shocks and fires in the stricken cities. A resolution to the effect that the conference expressed its sympathy with Chile and was confident that a new Valparaiso would arise, more prosperous than ever, was unanimously adopted.

The pesident of the conference, Senor Nabuco, and William I. Buchanan, head of the American delegation, and others, made speeches expressing sympathy with the earthquake sufferers, to which Senor Wayker Martinez, the Chilean minister to the United States and head of the Chilean delegation, replied with great emotion.

THREE MEN LOSE THEIR LIVES.

Fatal Blow Out of Gas at Coke Furnace.

By Wire to The Morning Star.

Pittsburg, August 21.—Three men are dead, two are in a serious condition and nine others were rendered unconscious by a blow-out of accumulated gas early to-day at the Eliza furnaces of the Jones & Laughlins Steel Company, at Soho, this city. The dead:

George Marsley, Andrew Marsley and Michael Boise.

The men were engaged in dumping ore and coke into the furnace from the top, when there was an explosion of accumulated gas. Flames shot up and enveloped Andrew Marsley in the deadly fumes and he fell unconscious. His brother George went to his assistance, but he too was overcome, and Michael Boise, who folowed him, was also rendered insensible.

In spite of their realization that the same fate awaited them, each of the eleven men remaining attempted to succor the first attacked and every one in turn was overcome. By this time the gas was cut off. The men were then rescued, but three died on the way to the hospital. The others were resuscitatd and all but two, John Marsley and George Ola, who may die, were able to go home.

NEGRO TROOPS TO LEAVE TEXAS

President Roosevelt Has Them Sent to Oklahoma.

(By Wire to The Morning Star.)

Washington, August 21.—The negro Federal troops ahve been ordered out of Texas. Instead of going to Fort Ringgold, which is about 100 miles up the Rio Grande from Fort Brown, the battalion of the 25th Infantry has been ordered to Fort Reno, Oklahoma. This action is in accordance with the direction of the President and also is recommended by General McCaskey, commander the Department of Texas. By direction of the President also, General Franklin Bell, chief of staff, will make a thorough investigation of the whole Brownsville affair and report to the President. Fort Brown is abandoned. The company of the 26th Infantry which was sent there today will not stay very long. As the language of the order will state Fort Brown will be temporarily abandoned and left in charge of a caretaker, which is the usual course when any military post is abandoned, but it is understood quite well that the temporary abandonment will be permanent.

The investigation now under way will be continued by Major Blockson and the War Department authorities state that every effort will be made to find out the facts and fix responsibility for the disturbances and that any soldier found guilty will be punished.

INSPECT THE SEABOARD.

Corporation Commission After Line Between Wilmington and Hamlet.

Raleigh, N. C., August 21.—The Corporation Commission left this afternoon for Hamlet and to-morrow inspects the Seaboard Air Line road from there to Wilmington, complaints having been made that the track is in bad condition. The Commission's powers are so limited that it can only recommend improvements, but cannot order them made.

BITTER CONTEST CLOSES TO-DAY

Democrats of Georgia Will Hold Election to Nominate State Officers.

FIVE RUN FOR GOVERNOR

Great Interest in Election Because of Hot Campaign Between Clark Howell and Hoke Smith—Convention September 4.

(By Wire to The Morning Star.)

Atlanta, Ga., August 21.—What has probably been the most bitterly contested political campaign in the history of Georgia will end to-morrow with the State Democratic primaries. Owing to the large predominance of the Democratic vote in the State, the decision will be equivalent to an election. Five candidates for Governor are in the field. These are Clark Howell, editor of the Atlanta Constitution; Hoke Smith, formerly Secretary of the Interior, under President Cleveland; J. H. Estill, editor of the Savannah Morning News; Richard B. Russell, of Jackson county, and Jas. M. Smith, one of the most extensive land owners and farmers in the State. The contest between Mr. Howell and Hoke Smith has excited the greatest interest during the campaign and the results to-morrow will be watched closely. Other State officers to be nominated are Secretary of State, Comptoller, Treasurer, Attorney General, School Commissioners, Commissioner of Agriculture, Prison Commissioner and Justices of the Supreme Court.

Senator Bacon is the only candidate for United States Senator. Congressional candidates in each of the eleven districts of the State will be balloted for. In the Third district, Congressman E. B. Lewis is opposed by Dudley M. Hughes; in the first district there are four candidates to fill the unexpired term of Congressman Lester, recently deceased. The other nine districts present no opposition to the present incumbents.

According to the Georgia primary law the candidate for Governor having the highest vote in each county, names the delegates from such county to the State convention, each county being entitled to twice as many delegates as it has members in the lower branch of the State Legislature. The State convention will be held at Macon September 4.

OHIO CHEERS FOR BRYAN.

State Democratic Convention Met Last Night and Took Recess.

(By Wire to The Morning Star.)

Columbus, Ohio, August 21.—Chairman Frank Harper, of the Democratic State Central Committee, called the State convention to order in the new Memorial Hall on Broad sreet at 8 o'clock to-night and announced the temporary organization recommended by the State Committee. Judge B. F. McCann, of Dayton, the temporary chairman, was introduced and delivered the opening address of the convention.

Hearty applause greeted many points in Chairman McCann's speech, and at the mention of the name of William J. Byan the enthusiasm of the delegates broke loose ad continued in cheers and waving of coats and hats for nearly two minutes.

The report of the committee on credentials was presented, declaring against the contestants in Hamilton county, and the report was adopted without discussion. The committee on permanent organization was adopted and the convention then adjourned till 9:30 to-morrow morning.
